

PRACTICAL SUSTAINABILITY SUPPORT FOR TEAMS

Genee provides **bespoke sustainability training** and facilitation for organisations. This can complement your iiE activity or be delivered as standalone support, depending on your needs. We design **practical, engaging sessions** to help teams develop skills, build engagement, and take meaningful environmental action.

GREEN TEAM SUPPORT

Support including goal setting, action planning, and workshop facilitation.

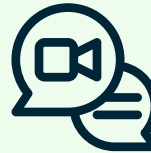

TEAM AWAY DAYS

Interactive sessions designed to bring teams together, explore sustainability priorities, generate ideas and build momentum.

CLIMATE REALITY TRAINING

Accessible staff sessions covering key topics such as climate change, net zero, carbon foot-printing, and waste reduction

TAILORED STAFF WEBINARS

Bespoke webinars or lunch-and-learn sessions on topics relevant to your organisation.

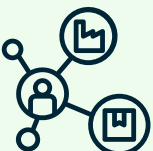

EMS SUPPORT

Practical workshops to help teams understand their role in contributing to the environmental management system

GREEN ENGAGEMENT

Training on how to communicate your sustainability achievements with impact and inspire action among staff, clients and community.

LEADERSHIP & STRATEGY SESSIONS

Facilitated discussions and workshops for leadership teams focused on sustainability priorities, organisational goals, action planning, and embedding environmental responsibility into decision-making.

BESPOKE TRAINING

If your organisation has specific needs or would like a tailored session, contact us to discuss how we can support your team.
